7. Please describe any practices that the Instructional Assistant specifically used that created or interfered with a welcoming and supportive learning environment.

I really appreciate how Letian went above and beyond to make a very detailed and tailored learning environment for all of us.

it helped me a lot when I feel confused

This TA created a supportive learning environment by prioritizing making sure every student understands the question over rushing through the problems to complete all of them quickly.

wouldn't say it was particularly welcoming, but was overall helpful with the homework reviews.

8. Please describe any practices that the Instructional Assistant specifically used that particularly helped you to learn the material and/or encouraged you to feel that you could succeed in the course.

Giving a brief summary in each discussion about what we just learned in lecture helped me understand the material better.

I appreciated the content review, and how he organized the homework solutions by material instead of numerical order.

if questions arose with the homework, he helped go over the question and understand the topic better.

yeah that is how he did

9. Please offer constructive suggestions that might help the Instructional Assistant improve their contribution to your learning of the course material.

I really appreciate how much material Letian was trying to cover for the students, and how he broke it down. But because he wanted to cover so much material, he'd speak so fast and I so badly wanted to tell him to just take a breath because listening to him talk so fast would lightly trigger my anxiety, even though I wasn't the one speaking.

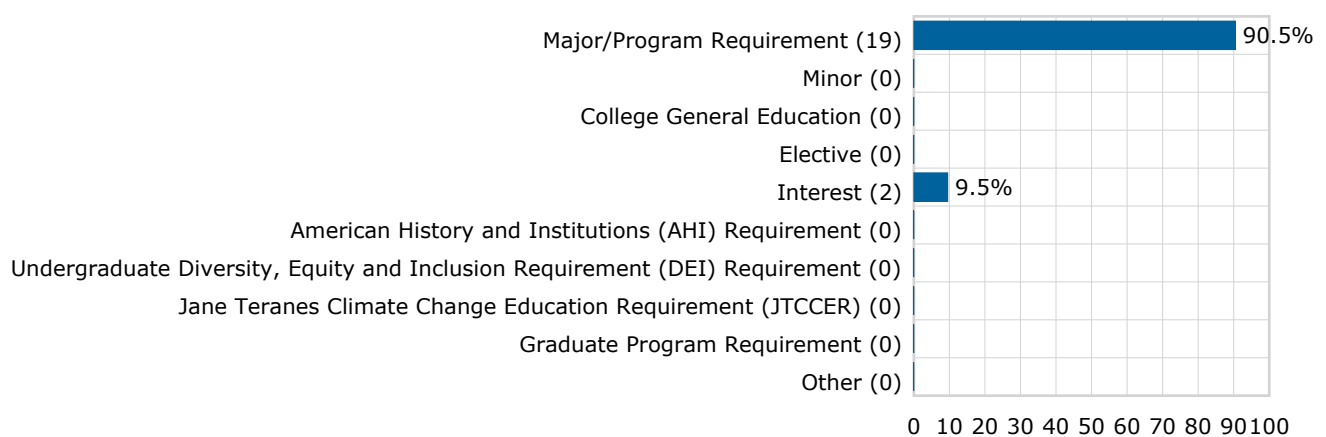

probably being more active/engaging.

10. Is there anything else you would like to share about your experience with this Instructional Assistant?

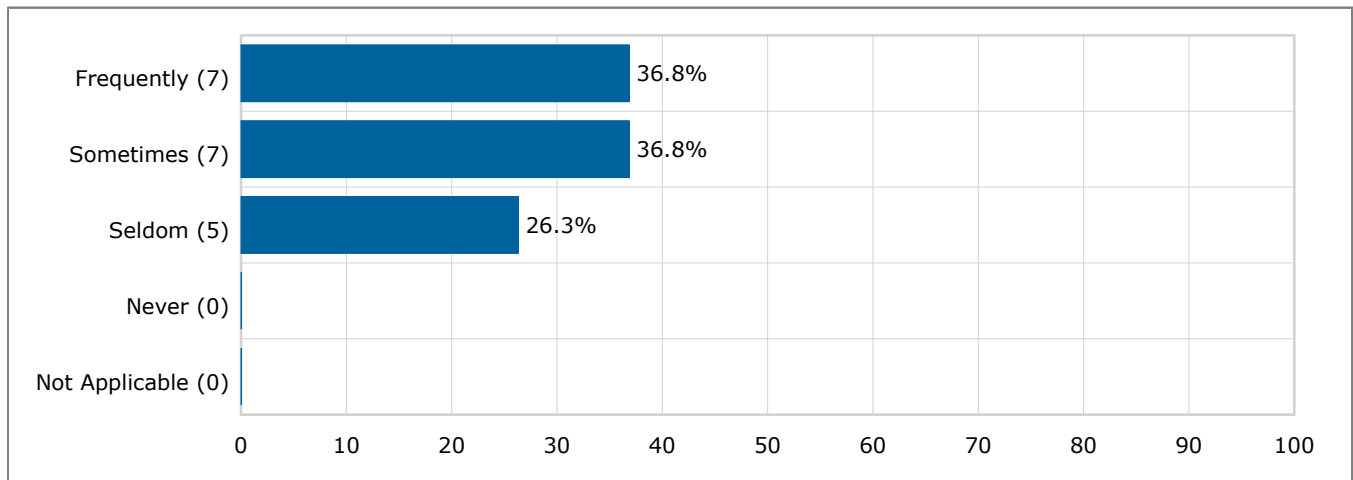

great instructor

It wasn't my best experience, but definitely met the standards of what we would say a good instructional assistant. Did all the roles.
