great

His presentation slides were very helpful in my understanding of the material. I greatly appreciated the work he put into them as they were very easy to follow and understand, even if I didn't attend the TA sessions.

Very welcoming person who loves what he teaches

yes

8. Please describe any practices that the Instructional Assistant specifically used that particularly helped you to learn the material and/or encouraged you to feel that you could succeed in the course.

great

How he would explain it to you as many times as you needed to understand

Letian has a very good grasp of the course material and was invaluable in helping both me and other students in the course effectively learn the concepts and apply them. His TA sections were always a great use of time and were very efficient in presenting the material given only one hour. I personally would not have done well in the class at all if it wasn't for his incredible teaching. He taught the course with much greater efficiency than the professor and had a solid command over all concepts and math for the HW problems.

very helpful at ta session

9. Please offer constructive suggestions that might help the Instructional Assistant improve their contribution to your learning of the course material.

great

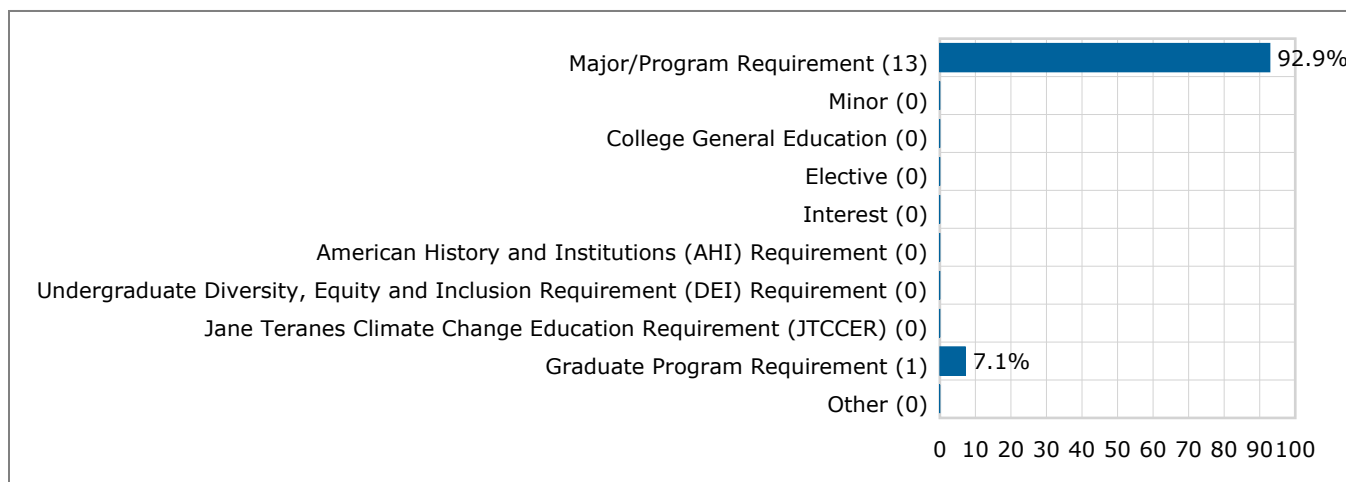

The TA sessions were too short so you had to rush through the material. That lessened my learning experience a little.
